

REFERRAL GUIDE

Gerontology

Gerontology provides specialist consultation for patients predominantly over 65 years old, aiming to provide a comprehensive assessment incorporating physical and psychosocial factors into the review and management plan.

Bayside Health
Regional Care Group

Clinical Lead

Name Dr Renee Kelsell

Role: Director of Geriatrics

How to Refer

All new referrals for Specialist Outpatient Clinics require a **medical referral**.

All new referrals are processed by the Bayside Health - Regional Care Group (Bass Coast) Access Department.

The **preferred mode** for external referrals to the Access Department is Fax (03) 9102 5307.

Internal referrals from within the Bayside Health – Regional Care Group can be sent via email (Access@basscoasthealth.org.au)

For further information on new referrals and services provided via the Access Team on (03) 5671 3175 or by email to Access@basscoasthealth.org.au

Relevant referral form

[Outpatient specialist clinic referral \(MR-309\)](#)

Referrer guidance

Clinically recommended guidance for referrers is available through [Gippsland Pathways](#).

Eligibility

Prior to referral, please check and ensure all referrals for Specialist Outpatient Clinics **meet**;

- [Minimal Referral Criteria](#)
- [State-wide Referral Criteria](#) (where applicable),
- Local Bass Coast service eligibility
- [Anaesthesia and Surgical Services – Patient Suitability Framework](#)

Please note, the [Managing referrals to non-admitted specialist services policy](#) states that we must not accept referrals that are incomplete or do not have the required information to assess.

Once we receive a referral we will **review to ensure**:

- We have all the information we need to progress
- The referral meets the Minimum referral criteria, State-wide Referral Criteria (where applicable) as well as local Bass Coast service eligibility
- Identify the best service/s to meet your patients' needs and
- Assign a referral priority, urgent or routine
- Provide a notification of a referral outcome

Referral Processing

Accepted referrals are **triaged according to priority** by our specialist doctors/health professionals, as 'urgent' or 'routine'.

High priority, 'urgent' access, is assigned to patients that have a condition with potential to deteriorate quickly, with significant consequences for health and quality of life if not managed promptly.

For **urgent referrals**, we will contact the patient and aim to schedule an appointment within 30 days or at the earliest available time.

For **routine referrals**, we will notify you and the patient of a routine appointment date or the transfer onto a service waitlist and aim to schedule an initial appointment within 365 days.

Within 8 working days, we will send you and your patient notification of the **referral outcome**, i.e. if the referral has been:

- Accepted and an appointment has been scheduled OR
- Accepted and the patient has been placed on a service waiting list OR
- Not accepted and the reasons why

Bayside Health

Priority

EMERGENCY

Conditions requiring **immediate emergency care**. Acute referrals requiring same day assessment or admission. **Recommend or contact '000' to arrange immediate transfer to emergency.**

URGENT

Assigned to patients that have **a condition with potential to deteriorate quickly**, with significant consequences for health and quality of life if not managed promptly. Aim to **schedule an initial appointment within 30 days** or at the earliest available time.

ROUTINE

Assigned to patients when **their condition is unlikely to deteriorate quickly** or have significant consequences for health and quality of life if the specialist assessment is delayed beyond 30 days. Routine appointments are scheduled (where possible) or transferred onto a service waitlist. Aim to **schedule an initial appointment within 365 days**.

Safety risk screening

RED FLAG CONDITIONS

EMERGENCY

Red flags signal the most serious clinical risks and need for same day assessment or admission.

- Rapid cognitive decline (over a period of hours/day), particularly if a stroke is suspected or acute delirium
- Fall with suspected fractured Neck of femur (NOF)
- Unwitnessed fall
- Rapid change in mobility and functional status

Gerontology provides specialist consultation for patients predominantly over 65years old, aiming to provide a comprehensive assessment incorporating physical and psychosocial factors into the review and management plan.

Procedures/Conditions seen at Bayside Health – Regional Care group (Bass Coast)

- Complex medical issues & multiple morbidities
- Cognitive Decline
- Falls: Impaired Mobility and Balance
